## EXPERIENCE

### Front-End Developer

#### Elm Company

Jan 2026 – March 2026

Remote

- Worked closely with UX/UI, product, and backend teams to translate business requirements into efficient front-end features.
- Built dynamic and interactive interfaces using React, and Tailwind CSS. Converted design prototypes into reusable, production-ready components aligned with Elm's design system.

## PROJECTS

### Full-Stack Developer

#### Arab Overflow

Feb 2026 – Ongoing

Repository

- Developed a full-stack community platform utilizing Next.js, TypeScript, and MongoDB, leveraging advanced rendering strategies (SSR, SSG, ISR) and caching to ensure high performance and SEO optimization.
- Engineered complex interactive features, including an AI-powered response generator using the OpenAI API, robust global search functionality, and a dynamic gamification system with user badges and reputation tracking.
- Implemented secure and scalable front-end architecture, integrating NextAuth for multi-provider authentication, Zod for strict schema validation, and Tailwind CSS for a highly responsive, modern user interface.

### Full-Stack Developer

#### Jobify

Aug 2025 – Oct 2025

Frontend | Backend

- Built a scalable, full-stack job management platform utilizing MongoDB, Express, React, and Node.js, designing a RESTful API capable of advanced search, aggregation, and data pagination.
- Engineered customized state management without Redux by leveraging React Context API and useReducer, optimizing data flow and efficiently handling complex UI states across protected routes.
- Implemented enterprise-level security and analytics, securing the backend with robust JWT authentication and sanitization middleware, while integrating Recharts on the frontend to render dynamic, interactive data visualizations.

## EDUCATION

### B.S. in Engineering

#### Cairo University

Sep 2021 – June 2026

## SKILLS

JavaScript TypeScript React  
Next.js HTML Node.js Express.js  
MongoDB Git & GitHub  
Tailwind CSS SASS & CSS Figma  
Web Performance

## SOFT SKILLS

Learning Potential Team Work  
Organization Flexibility  
Responsibility MultiTasking

## LANGUAGES

Arabic ●●●●●

English ●●●●●

## CERTIFICATION

- JavaScript: The Hard Parts - Frontend Masters
- JavaScript Algorithms and Data Structures Masterclass - Udemy
- React: The Complete Guide (incl Hooks, React Router, Redux) - Udemy
- NodeJS: The Complete Guide (MVC, REST APIs, GraphQL, Deno) - Udemy
- TypeScript Pro Essentials - Total TypeScript
